Welcome to our 18th Annual Bull and Female sale.

We thank you for your interest in these cattle and our program.

We are a family-run operation and we make our living off these cattle and a small grain farming operation, therefore they need to perform for us, and our customers. We focus on producing problem free, high quality cattle. Started in 1960 by Eugene and Marilyn Kramer, we have been performance testing for over 45 years, keeping AHIR records for over 35 years and are currently using the latest technology available including 50K. The cattle in this sale are the results of these efforts.

Top Line Farm and Bear Mountain Angus Ranch are genetic suppliers of several lots in this sale.

This year's bull and heifer crop is really stout and features some fresh new genetics backed by our proven producing cow herd. We think you will be even more impressed when you view this sale offering for yourself. You will find them to be muscular, long bodied, sound structural and well developed. Our cow herd is culled for udder quality and disposition issues.

I would like to thank all past customers for their business and positive comments about our cattle and look forward to what the future may bring. Special Thanks to Jason Hooks for his dedication to Kramer Angus. Behind every successful operation is a good wife and dedicated help and I'm grateful to have both.

I hope you can all attend the sale and see for yourself why we are so proud of this year's sale offering. If not, you can watch and bid on Live Auctions TV.

If we can be of further assistance please do not hesitate to call.
